OBJECTIVES OF PRESENT STUDY:

- To make easy work for users.
- To provides best services.
- To reduce the time period of user to find the medical store.
- To provide a more option of medicines and health care products.

II. LITERATURE REVIEW

The investigation of the idea was taken place and it was known that most of the people are buying their medicines from nearest pharmacy on regular bases. There are almost200 online pharmacies are there in India and many more worldwide. According to the current scenario, most of all the applications are selling medicines but they are taking long hours to deliver where customers faced problems of timings and some frauds but we tried to gather information about all the problems. This

application will build faster delivery process of medicines and health care products. The customers will be able to get the updates regularly from the admin side. Health plays intrinsic role in development of nations and we have implemented a number of strategies that addresses and identifies people's health and needs.

PHARMEASY is India's largest online subscription portal for medicines. With pharmeasy application anyone can order health care products and medicines and get them deliver to your doorstep within few days. Anyone can also book health tests and packages from the convince of your home.

Currently they deliver medicines in Mumbai, Delhi, Noida, West Bangal, Karnataka, Uttarpradesh and Gujarat including major metros Bangalore, Pune and Ahmadabad. They provide medicines online also diagnostic tests , few health care products and some basic medical guidance.

Another second investigation we did on one pharmacy application developed by APOLLO group. Apollo Hospitals believe in community engagement and provides its customers more than just specific health treatments. Keeping this in mind, Apollo Hospitals bring to you a solution that provides you with a greater accessibility to your healthcare needs. With over 7000 doctors working diligently in about 64 varied specialties, Apollo Hospitals cater to all your health needs with Ask Apollo, your one and only platform where you can find your own doctor by location or their speciality. This portal is one of the finest ways to beat the challenges that arise in order to avail healthcare. Ask Apollo helps you seamlessly access healthcare experts at a single click, enabling you to make better healthcare decisions. The booking and appointment process is fairly easy where you are simply required to login to the Ask Apollo website and enter mandatory fields stating the speciality or the doctor's name, the city and the hospital that will be convenient for you.

"MED-EASY-HEALTHCARE PRODUCT" is a proposed effective solution for the problems related to current application. III. METHODOLOGY

MED-EASY-HEALTHCARE PRODUCT- an android based application which will work on all android devices. The main purpose of this application is to make work ease for the people who want purchase medicines or health care product online. During our research we found out that there is no such existing android application which provides these kind of features. Thus we are interested in developing an application which would surely make a difference to the digital world.

The application will work in following way:
  ➢ Upload the picture of your doctor's prescription or select the health care product.

  ➢ Provide name, phone number, Email id and address where you would like your medicines or health care products delivered.

  ➢ Our partner retailer will call you to confirm the health care product or medicines you need from your prescription along with their quantities.

  ➢ The pickup boy will come to your doorstep along with your prescription photo and will telly with your official prescription.

IV. CONCLUSION

On our application, you will get detailed information about 100K medicines vetted by certified pharmacist. You can also attach your prescription online whenever you need to do so. Ayurvedic and homeopathic categories are also our forte, and a wide range of medicine is available under these streams. Adding new wings to E-Pharmacy , we ensure complete health care for all. The popular Health Products at our website are diabetes devices, Ayurveda and mother and child. Using Medeasy you can explore various online prescription medicines as well as Healthcare Products. Buying prescription drugs online is very simple on Medeasy, you just need to search for the medicines , add to the cart and if the medicine requires a prescription you can upload a copy of the prescription from your desktop right there and proceed to checkout. You can also buy other health care products online that doesn't require a prescription. So hop for online health care medicines for your personal and family wellness.
