Keywords- NSS, Tree Plantation, Azadi ka Amrut Mahotsav, Blood Donation, Awareness walk.

I. INTRODUCTION

A G Patil Polytechnic Institute is one of well-known organization, where multiple technical & non –technical activities have been held, NSS is part of it. Organization has been started during 2008 and this cell had been established during 2010. Main motto of this cell National Scheme services to fulfill the need of the society & to motivate students to help society, Save Environment & Save Nation. Under this cell many activities like Tree Plantation, Awareness walk to stop child sex abuse, swachata mohim, prevent road accidents, road safety week ,electric safety week ,with collaboration of social club Inner wheel club of Solapur Harmony –Tree plantation etc... As India is celebrating Azadi ka Amrut Mahotsav, NSS cell have decided to plant 75 trees on the occasion of Independence Day ‘Azaadi Ka Amrut Mahotsav’

Objectives:

1. 9 acres premises needed trees & plants for greenery.
2. Social awareness was needed for students to help society & sustainability.
3. Safety rules of traffic & responsiveness regarding sexual abuse was needed.

2013-2014

On the occasion of world health day, blood donation camp was organized on 7th april, 2014.

NSS News

1. NSS - AGPPI celebrated a “World Health Day” by giving massages of health experts to all the students and faculty through arranging **Blood Donation Camp** in our campus. 65 peoples among the members of NSS and the student of college donated Blood with making agenda to help the people when needed by them.

Chief Guests: - Mr. S. A. Patil (Secretary, Shanti Education Society, Solapur).
Mr. Chougule M.A. (Principal, A G P P I).
Mr. Jaketia J.M. (Vice Principal, A G P P I).

Program Date: - 07-04-2014
Venue: - A G P P I, Solapur

2014-2015

AGPPI & AGPIT celebrated Independence Day

On the occasion of “Independence Day” on 15/08/2014 a tree plantation program was organized by NSS- (National Service Scheme) AGPPI Solapur from 09 am onwards. The Tree plantation program is inaugurated by planting a gulmohor tree by chief guest A.D. Joshi president of Indian Model School, Solapur and Mr. Ravindraji Adage Trustee Member, Shanti education society, Soalpur.

2015-2016

During this year with tree plantation yoga camp, blood donation camp, awareness walk all activities had been conducted.

In diploma usually adolescent, age (15 to 18) students used to enrolled, but some students who have completed their 18 years, could participate in blood donation camp.

There are lots of advantages in blood donation camp, so first initiative of blood donation camp was taken during the year 2015-16.

During those years one foundation had started working on child abuse. They organized awareness walk with solapur high profiled dignities & AGPPI with staff & students attended this.

So NSS was not established for only tree plantation & blood donation, but after initial years cell did collaboration with social organizations & created awareness.

2016-2017

Initially tree plantation had been done at very initial level, college took participate in different activities but during 2014-17 our college had been approached for NBA & documentation work has been started.

Like during 2016 students purchased some plants .Saptparni, hibiscus, rose plants & some big trees.Organisation started maintaining file

The agenda of Program is like...

1. NSS Meeting Notice
2. Minutes of Meeting
3. NSS report

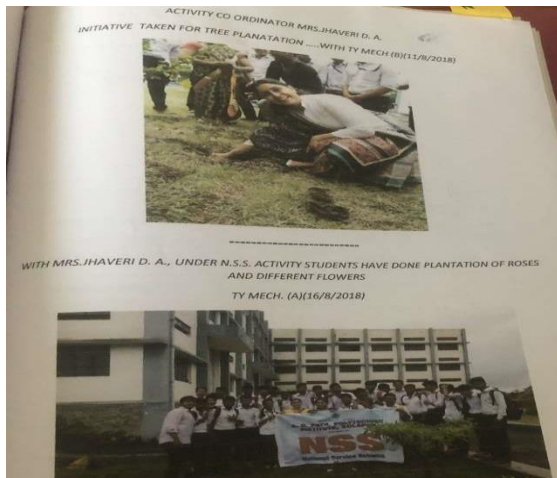

Chuppi Todo Awareness walk during 16-17.

2017-2019

During 17-18 poster presentation activity was held under NSS cell.

After that self-defense activity was held during this year. In this activity they got aware about to protect themselves with self-defense activity.

Demo of Self Defense by Trainer

Means each & every academic year cell became creative & active.

Swachhata Mohim

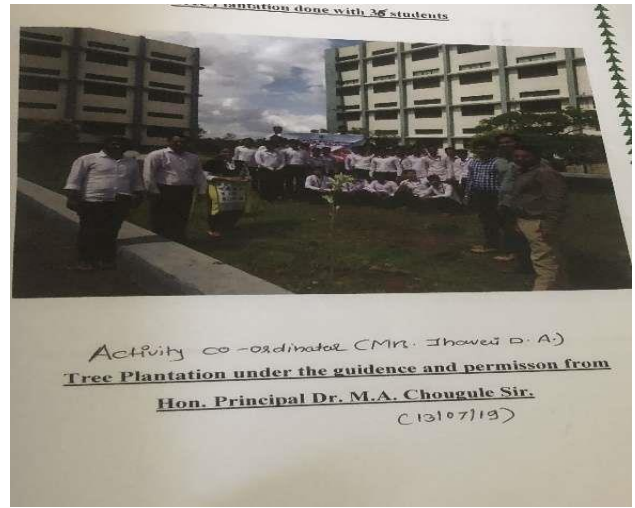

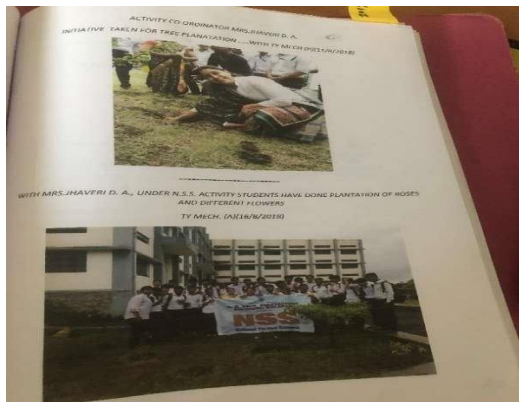

After tree plantation clean premises was mandatory with unwanted grass. So NSS took this initiative with students.

Even they have celebrated road safety week too with students.

During this year Tree Plantation activity has done in front of Mechanical department.

Means all tree plantation activities was done with traditional methods, but after that NSS started this activity with collaboration of social organizations.

With collaboration of different social organizations, we would be able to know about the

Activity with different organizations.(Inner wheel club of Harmony Solapur)

Problem Definitions:

1. From 2010 to 2018 at tree plantation had been done at different levels, with different methods & different organizations.
2. Our organization usually preferred saptaparni (devil's tree) plants but later on we realized one thing.
3. Devil's tree generated carbon dioxide during day time.
4. Birds never build a nest on devil's tree so it disturbed nature.

Solutions:

Instead of saptaparni (Devil's tree) now big tress banyan tree, small flower plants, hibiscus flower plants have been planted.

After that our premises is looking so beautiful with the morning chirping of birds and

We must say think green and Go green, Go green to keep this world clean.

New Innovation:

During the year 2022 all Indian people was celebrating 75 years of Independence then why AGPPI should be behind. With collaboration of Jain Sangini Group tree plantation activity was held. Total 75 saplings were planted.

Each & every staff members with higher authorities took responsibilities to take care of their adopted plants.

Jain sangini forum club members.plantaion Of saplings.

with particular name of higher authorities like Principal & vice-principal of campus .The will personally take care of this particular plants.

Conclusions:

1. Aim & objectives were fulfilled. Our premises have beautiful greenery now.
2. Students are aware about the value of blood donation, child abuse, traffic rules, tree planation & many more activities.

Last but not least with Jagruti a women cell Nss participated in **Harr Ghar Tiranga**& plant adoption activities.

Lady faculty members took active participation on that activity also

So finally I could reach to my title of the paper Ek nekk Kam Desh K nam.

II. ACKNOWLEDGMENT

I give special thanks to Dr.M.A. chougule Principal & campus director & principal of AGPPI for supporting & co-operating to our cell. Mr.Boga S.A. (NSS coordinator) for providing me all data. Social organizations like Innerwheel club, Jain sangini forum for donating saplings.
