#### II. STATEMENT OF THE PROBLEM

The simple trouble for studies is to justify the effectiveness or effect of marketing and marketing to undertake make income specifically at some stage in the introductory level and why is it that in introductory level of the product existence cycle a brand new product dies now no longer accomplishing the boom or adulthood level. What method(s) of marketing and marketing are to and whether or not the ones strategies are definitely powerful sufficient to obtain the favoured goals.

Over the years, many organisation in India appears to accept as true with that after items or offerings are produced, there is prepared marketplace for such items and offerings. As they do now no longer appear to understand or admire the area or function of marketing and marketing in the direction of success in their organizational earnings or income objectives.

## III. REVIEW OF LITERATURE

Mr. Rupesh Chandra presented an article entitled "advertising a promotional tool promotion of Dabur Products" in which he reveals that Dabur should adopt an extensive push marketing strategy for all its products and extensive advertising for products namely Vatika Hair Oil, Amla Light and Binaca toothpowder and Binaca toothbrush.

Mr. Holly Paquette presented an article entitled "Social Media a promotional tool for textile products" in which he reveals that social media sites such as Facebook are better than other advertising avenues because it stores information on all its users thus ensuring marketing reaches a retailer's specific target market.

# IV. OBJECTIVES OF THE STUDY

- To recognition on developing our centre manufacturers throughout categories, achieving out to new geographies, inside and out of doors India and to enhance operational efficiencies with the aid of using leveraging technology.
- 2. To provide our shoppers with innovative product at intervals simple reach.
- 3. To be professionally controlled agency of choice, attracting, growing and maintaining great personnel.
- 4. To offer advanced returns, relative to our peer group, to our shareholders.

# V. RESEARCH METHODOLOGY

#### **METHODOLOGY:**

The present study is descriptive research. Descriptive research is a survey and findings enquiries of different types. This study is based on the responses of 98 respondents.

#### **Sources of Data:**

# • Primary Data:

Primary data is the first-hand data gathered through Google Forms by means of Questionnaire Method

# • Secondary Data:

Secondary data is research data that has previously been gathered and can be accessed by researchers. The sources of secondary data are from internet & articles.

# TOOLS AND TECHNIQUES USED FOR ANALYSIS

The data was collected through structured questionnaire it has been tabulated, analysed and applied SIMPLE PERCENTAGE ANALYSIS.

## SIMPLE PERCENTAGE ANALYSIS:

Percentage analysis is mainly used to standardize the response of the respondents. This analysis is carried out for all the questions given in the Questionnaire, mainly to access the, how the respondents are distributed in each category.

Percentage= number of respondents / sample size\* 100
